No data available.

4.7 Effects on ability to drive and use machines

WATER FOR IRRIGATION FRESENIUS has no influence on the ability to drive and use machines.

4.8 Undesirable effects

None known if used according to the instructions given.

Reporting of suspected adverse reactions

Reporting suspected adverse reactions after authorisation of the medicine is important. It allows continued monitoring of the benefit/risk balance of the medicine. Healthcare providers are requested to report any suspected adverse drug reactions to SAHPRA via the Med Safety APP (Medsafety X SAHPRA) and eReporting platform (who-umc.org) found on SAHPRA website.

Healthcare providers are asked to report any suspected Adverse Drug Reactions to the Holder of the Certificate of Registration at the following email address:

safety.fksa@fresenius-kabi.com, and to the relevant medicine's regulatory authority in the country where the product is marketed.

4.9 Overdose

There is a possibility of fluid absorption, if this occurs in excess, hypervolaemia and renal failure may result. Treat symptomatically paying particular attention to restoring the electrolyte balance.

5. PHARMACOLOGICAL PROPERTIES

5.1 Pharmacodynamic properties

A 34 Other

ATC code: V07AB

Pharmacotherapeutic group: Solvents and diluting agents, including irrigating solutions

Water for Irrigation is a liquid for irrigation of wounds.

5.2 Pharmacokinetic properties

None

6. PHARMACEUTICAL PARTICULARS

6.1 List of excipients

Inactive ingredients: None.
